Craig and/or Mike:

I am requesting your assistance. Can either of you help sort this out?

Three ORD Federal personnel along with Operations and Maintenance and warehouse contactors are remaining in Las Vegas through 9/30/2020. Robert Andrews is the Federal Security Manager with building access control responsibilities. In a nutshell, I am not requiring him to take on running the ID Badge system if there are IT contractors still there able to provide this service.

I was there on Wednesday, 10/3 and thought I saw the contractor Dan Kinyon, who has familiarity with the Millennium Badge System. Is he still working and in place and available to service the Las Vegas site? I am wondering if there was a miscommunication about discontinuing support for the badge access system? I see in a message below about desktop services leaving the site but they are still in place. I had Rich Hineman, another contractor hook me up to printer by IP address since the Print Server had been taken out just this past Tuesday, 10/2/18!

Feel free to call to discuss. (I did try to call Mr. Hammel a few minutes ago at the number listed in the Locator and SKYPE contact card, specifically (703) 347-0110 and had the line answered by the recording stating "You have reached unassigned number at the Environmental Protection Agency . . ." Not sure why that happened but thought Mr. Hammel would want to know in case the telephone number is somehow, incorrectly listed.

Robert
I understand and think it's best that you talk to NERL mgt about the situation.

Thanks

Subject: RE: Millennium Badge System in Las Vegas

Good morning Craig,

As you know the NERL Las Vegas site is scheduled for decommissioning on 9/30/2020. Will there be IT support here until that date? My reason for asking is that the current IT support regulates and control the Millennium card access readers on all our critical facilities/doors. With the closure of the NERL site, I will continue to need the general IT support (e.g. the badging request (s) to meet our mission requirements) until the doors close and the leased property is transferred back to the LESSOR.

Please let me know if I need to channel this critical function request up to my Senior Management at ORD/NERL Divisions.

Cordially,

Robert

Hi Robert –

I know ITI2 has a couple of tickets for the badging system in LV but we agreed to stop support of that on 9/30/18. Please see below and if something needs to be completed or if you need someone to walk you through it we can figure it out.

Please let me know.

Thanks

Robert.

This is just to verify what spoke about earlier today. ITI will support the subject referenced system until 9/30/18

Thanks.

Subject: Millennium Badge System in Las Vegas

Craig,

I checked with Allen Tillford regarding the Millennium Badge System in Las Vegas. There is no issue with continuing to provide support through Sept 30, 2018. Allen was trying to work with the Facilities Manager Robert Andrews to train him on the system in anticipation of desktop staff leaving Las Vegas in the Sept 2018 timeframe.

Thank You,

Jack Vetrano, PMP
